or email: ckm.pathway@ahs.ca

What is CKM?

Conservative Kidney Management (CKM) is a treatment option that some end stage kidney disease patients choose as an alternative to dialysis or transplant. CKM patients may live as long as patients on dialysis. They tend to preserve their functional status, maintain a better overall quality of life, and have fewer hospital admissions.

Community Engagement

Help us to engage further with community & primary care. We are looking for providers from family practice, home care, and supportive living to participate in a **series of facilitated workshops** to pilot the pathway with outpatient Kidney Clinics:

Thu, Sep 29, 2016

Thu, Apr 6, 2017

Thu, Sep 21, 2017

**eligible participants will receive a meeting stipend as per Provincial Medical Affairs, and can receive CME credits*

Warm Welcome!

We are thrilled to introduce our newest team member! **Dorothy Spies** has an extensive nursing background, is a sessional instructor for the Faculty of Nursing at the University of Alberta, and has a passion for adult education. Dorothy will be transitioning into Beth Tupala's role as the Research Nurse for the CKM Project. As of Jun 7, she can be reached at:

Dorothy.Spies@covenanthealth.ca
780-492-6024
